Welcome to the 2001 Cabrillo College Fact Book

For the most up-to-date Fact Book data, please visit:
http://www.cabrillo.cc.ca.us/oir/factbook/fact.html

The Fact Book contains resource and reference information useful for the following:

- Planning
- Enrollment management
- Grant development
- Marketing
- Program planning
- Outreach
- Learning outcome assessment, and
- Partnership for Excellence

The Fact Book helps faculty, staff, students and members of the college community better understand the operations of the college in the following areas: 1) Governance, 2) Instruction, 3) Students, 4) Faculty, 5) Fiscal/Budget, and 6) Facilities/Services.

The contents and layout of this edition of the Fact Book are different from previous editions. We have designed the book based on the natural sequence of steps taken by the reader and his/her level of interest in the details. The last section of the book contains Learning Outcome and Program Planning data, which used to be at the beginning of the book.

It is a very time consuming task to compile the Fact Book. Each chart or table is a study in itself. We have made every attempt to present the data as accurately as possible. If a reader spots an error or would like to provide suggestions, please do not hesitate to contact the Planning and Research Office (PRO).

We would like to thank the following individuals for their support and dedication to publishing the Fact Book. We would like to thank John Hurd, Claire Biancalana, Pegi Ard, Manuel Osorio, Bette Hirsch, Rock Pfotenhauer, and Loreen Easterly for their firm commitment to and support of planning and research at the college. Thanks also go to Kay Cardwell, Johanna Bowen, Gloria Garing, Al Holbert, Salvatoria Larter, Rachel Mayo, Donna Mekis, Marylee Morrison, Richard Ross, Dana Eno-Price, Dena Taylor, and the entire Research Advisory Committee. The Director of the Planning and Research Office would like to thank Richard Borden, Judy Cassada and Shirley Trimble for working beyond the call of duty and excelling in everything they do. Special thanks go to Sue Haas, Marcy Weiland, and J. C. Firth for providing the data, and Ray Rider and his crew for the wonderful service at a moment's notice. And, again, Shirley Trimble, we are proud of your accomplishments and your skills in digital media.

DW – Data Warehouse. Essential to research, planning, marketing, and executive decision making, a data warehouse provides the critical data source, outside surveyed or aggregate data. It typically consists of a collection of data files with unitary data elements either linked with a key or key variables or ready to be linked ad hoc with a relational database software program.

PFE – Partnership for Excellence. It is a mutual commitment by the State of California and the California Community Colleges system to significantly expand the contribution of the community colleges to the social and economic success of California. It is structured in phases, with substantial financial investment by the State in exchange for a credible commitment from the System to specific student and performance outcomes. Initiated in 1998 by the Chancellor's Office, it is a legislation driven program aimed to improve both system goals and district specific goals in Transfer, Degree/Certificate, Successful Course Completion, Basic Skills, and Workforce Development.

AA – African American

AI - American Indian

WSCH – Weekly Student Contact Hours. Referring to the Learning Outcome and Program Planning Data by Department by Academic Year (pages 60-87), it is a way of examining productivity via a cost per resource by unit. It is the count of the number of hours per week that students are in attendance in a course.

FTES - Full Time Equivalent Student. Referring to the Learning Outcome and Program Planning Data by Department by Academic Year (pages 60-87), WSCH divided by 525 and multiplied by 17.5, which is the Term Length Multiplier defined as the number of weeks per semester.

FTEF - Full Time Equivalent Faculty. Referring to the Learning Outcome and Program Planning Data by Department by Academic Year (pages 60-87), it is the percentage of full-time equivalent faculty for a specific discipline.

In order to facilitate the search for data for various accountability and planning initiatives, this Fact Book has built the following cross-walk references. The page numbers on which the data is presented are in parentheses. Not all areas are covered by the Fact Book and each area may not be covered thoroughly. Please contact PRO or other affiliated offices for detailed information.

Sources and Projection Assumptions:

Enrollment and Graduation Data are from California Department of Education (CDE) and California Department of Finance (DOF). High School Graduate Projections are from DOF. 12th grade Enrollment projections were based on the significant correlation ($R^2 = 0.77$) observed between H.S. graduates and H.S. graduate enrollment at Cabrillo observed from 92-93 to 99-00 by using the formula:

H.S. Grads Enrolling at Cabrillo = 0.273 x (DOF H.S. graduates) + 271.

Projection assumptions:
(1) The Watsonville Center/Area will resume its 1993-2000 compound annual growth rate of 2.9% for 2002-2011.
(2) The balance of the College (less Watsonville) will continue its 1993-2000 compound annual growth rate of 1.25%.

* Note: The Fall 1999 Census count came in at 95.6% of the end-of-term Data Warehouse actual count. Accordingly, the Fall 2001 Census count (N=13,672) was divided by 0.956 to approximate the Fall 2001 "actual".

** Note: The "Base" and "Low" estimates are derived from population growth and demand increases as projected by the California Postsecondary Education Commission, which were partly based upon California Department of Finance and U.S. Census Bureau data.

PPR: Population Participation Rate. It is usually expressed as the number of students enrolled at the college per 1,000 adults living in the service area, which is currently defined as the entire county. The current rate has been affected by the population projections made from the 1990 census that resulted in a total county adult population of 183,236 when in fact the census 2000 data reported a total of 194,861 adults in the county by 2000. Adjustments have been made to linearly increase the lagging projections for the years leading up to 2000.

Data sources: Census Data from Geolytics Census 2000 CD and Enrollment data from Data Warehouse (ppr.bqy).

Learning Outcome and Program Planning Data by Department by Academic Year

How To Use The Following Comprehensive Institutional Input And Output Tables

The following tables have been designed for the purpose of providing one-stop shopping for information on most frequently requested program level information.

Input information includes:

- census enrollment student counts,
- majors claimed,
- FTES,
- WSCH,
- FTEF,
- oad (WSCH/FTEF),
- % of WSCH,
- % of FTEF and
- wait list.

Output information includes:

- success and retention rates,
- licensure exam passing rates, and
- degree/certificate awards.

For further drill-down information and information not included in these tables, please consult the rest of the Fact Book.

Notes:

1. Non- credit courses (5xx) are excluded from this data.
2. Spring 1998 and prior semesters excluded data on Special Studies (80S, 180S,22) Work Experience, and Labs from Enrollment and Wait List data. As of Fall 1998, they are included in Enrollment and Wait List Statistics.
3. Wait List data not available for every semester due to Datatel conversion.
